***** ANNOUNCEMENT *****

--File 515 D&B Dun's Electronic Business Directory is now online completely updated and redesigned. For details, see HELP NEWS F515.

--File 990 - NewsRoom now contains May 2002 to present records.
File 993 - NewsRoom archive contains 2002 records from January 2002-April 2002. To search all 2002 records, BEGIN 990,993 or B NEWS2002.

--Alerts have been enhanced to allow a single Alert profile to be stored and run against multiple files. Duplicate removal is available across files and for up to 12 months. The Alert may be run according to the file's update frequency or according to a custom calendar-based schedule. There are no additional prices for these enhanced features. See HELP ALERT for more information.

--U.S. Patents Fulltext (File 654) has been redesigned with new search and display features. See HELP NEWS 654 for information.

--Connect Time joins DialUnits as pricing options on Dialog. See HELP CONNECT for information.

--CLAIMS/US Patents (Files 340,341, 942) have been enhanced with both application and grant publication level in a single record. See HELP NEWS 340 for information.

--SourceOne patents are now delivered to your email inbox as PDF replacing TIFF delivery. See HELP SOURCE1 for more information.

--Important news for public and academic libraries. See HELP LIBRARY for more information.

--Important Notice to Freelance Authors--
See HELP FREELANCE for more information

For information about the access to file 43 please see Help News43.

SyncMaster 700p Plus

Cranford-Petelle, Buffy
PC Today , September 1, 1998 , v12 n9 p46, 1 Page(s)
ISSN: 1040-6484
Company Name: Samsung Electronics America
URL: http://www.sosimple.com
Product Name: SyncMaster 700p Plus
Languages: English
Document Type: Hardware Review
Grade (of Product Reviewed): A
Hardware/Software Compatibility: IBM PC Compatible; Macintosh
Geographic Location: United States

Presents a very favorable review of the SyncMaster 700p Plus (\$549), a 17-inch monitor from Samsung Electronics America Inc. (800, 201). Runs with IBM PC compatibles or the Macintosh. Indicates that the SyncMaster has a 16-inch viewable image size, 0.26mm dot pitch, a maximum 1600 x 1200 resolution at a 75Hz refresh rate, and can support 1280 x 1024 resolution at 85Hz. Features include a 205MHz pixel frequency, 10 preset microprocessor modes, 12 user modes, a utility for installing USB support, and Kodak's Colorific software. States that the SyncMaster has a retractable on-screen display control panel that enables sharp alignment, and offers adjustments for position, degauss, moire, and color temperature and hue. Concludes that the SyncMaster's excellent image quality, sharp colors, superior controls, and excellent lineage at high resolutions make it suitable for high-end graphics and multimedia applications. Includes one photo.

Indicators of quality

Kimball, Ralph

Intelligent Enterprise , April 10, 2000 , v3 n6 p20-23, 3 Page(s)

ISSN: 1524-3621

Languages: English

Document Type: Articles, News & Columns

Geographic Location: United States

DATA WEBHOUSE column says enterprise computing data warehouse managers should use standard query tools to track data quality and lineage. Says as data warehouses become operational interfaces of Web-enabled businesses they become systems of record and require data quality and lineage examinations. Includes one table (p22) with a list of descriptors that should be available when ultimately facing auditors with questions about underlying assumptions. Says this table of descriptors raises some tough questions, such as: how do users actually use data quality and lineage indicators? Where are the indicators stored? Is the list data or metadata? How do users keep all the indicators tightly coupled to real data? What is the granularity of indicators? How can the indicators be applied to high level data? Says designs for data warehousing need to include the audit dimension fields. Includes one flowchart and one table. (bjp)

GRADE: Product Analysis, No Rating

ASC is developing a PC version of the favorite pen-and-paper role-playing game, Werewolf: The Apocalypse, for publisher Dreamforge. The game is being built on the Unreal engine. The story is of an 'angry young man' named Ryan McCulloch who discovers his werewolf lineage, and sets out to conquer the evil Wyrms. Ryan can take the form of human, half-human/half-wolf, and

werewolf during the game. The game will include much real-time combat, as well as puzzles and spells. The game looks promising, based as it is on excellent, popular material, and being developed by a group with a good track record for tense, atmospheric material.

COMPANY NAME: ASC Games (658863)

SPECIAL FEATURE: Screen Layouts
